Suddenly and unexpectedly an unknown snatch thief robbed Mrs. M. C. # AFTER THE **MORMONS**

A Delegation Waits Upon a Baptist Minister Here.

FEELING MUCH AGGRIEVED

They Insisted That He Cease Making Publications Regarding, Joseph Smith, the Head of Their Church.

The Mormon sect, as it is represented n Richmond, has manifested a distinct and decided disapproval of 'an attack made upon it by a Baptist pastor here. It has done nothing more nor less than appoint a delegation of elders to wait fulnte with him-have it out, as it were. The matter has attracted some little at tention in the East End, and the end of it is not yet. The Baptist clergyman, it is true, received the delegation and argued with them, but he did not change his views. So far from retreating from the position he had taken, he prepared an-other broadside and will very shortly let

HAVE BEEN ACTIVE.

HAVE BEEN ACTIVE.

For some time past the Mormons have been quite active in Richmond, particularly on Church Hill, where they have been making a house to house canvas. How successful they have been in winning converts it is impossible to say, but they have certainly been at work.

Upon the Hill is situated the Broadus Memorial Baptist Church, of which the Rev. Clarence P. Stealey is the pastor. In connection with his church Mr. Stealey edits a little paper called "The Questioner." in which he prints the news of his congregation and in which at times he has something to say editorially. The activity of the Mormons came to the attention of Mr. Stealey, and he at once threw an editorial firebrand into the camp. First of all he gave a long string of Mormonite principles.

"Just new." he said, "there is need for

First of all he gave a long string of Mor-monite principles.

"Just now." he said, "there is need for the people on Church Hill to know was the Mormons are, and to have a little better understanding of their doctrines than they are liable to give in their first efforts to win a hearing. We have a great many facts in regard to them, and while there is no personal feeling against the young men who are disseminating their literature under the name of Latter Day Saints, we do want to warn our people Saints, we do want to warn our people that they are of a late day and have no connection whatever with the spirit and teaching of Bible writers. They are wise as scrpents, but you can go no further to the quantition. Here are some 'wise as scrpents, but you can go no further in the quotation. Here are some of their beliefs, \* \* \* In the next issue we will have something more to say."

The "next issue" appeared in due time and in it Mr. Stealey went pretty heavily after Joseph Smith, the great prophet of Mormonism. He argued that no religion can rise above the moral statue of its

founder, and he thereupon proceeded to declare that Joe Smith had no moral "If there is any system that is worse There is any system that is worse than Mormanism,' said Mr. Stealey, in conclusion, 'we cannot think what it is, for it claims to honor the Bible, at the same time putting more honor upon such visions as Joseph Smith claimed to have. 'No stream can rise higher than the fountity head.'"

can rise above the moral statue of its

tain-head."

WENT TO SEE HIM.

This was too much for the Mormons and a committee of elders have recently been to see Mr. Stealey about the matter. They declared that what he had said was false, and they made a pretty urgent suggestion that he discontinue publications of the sort. Mr. Stealey said yesterday that there was no threat or anything of the sort. They wished, however, to inform him that what he had said was false. According to the pastor of Broaddus-Memorial he replied to the elders that he was pretty well satisfied with the sources of his information.

The upshot of the whole affair is that Mr. Stealey has written another editorial against the Mormons, and will publish it in the forthcoming issue of his paper. He said yesterday that he had no idea of withdrawing from the field or ceasing his fire.

"'Tis merry in hall, when beards wag And welcome merry Shroyetide."

And welcome merry Shrovelide."

Shrove Tuesday derives its name from the early church practice of Christians confessing their sins and being shriven on that day in preparation for the penitential season to follow. In the course of time a reversion to the old Lupercalian and Bacchanalian springtime feativals developed the original Shrove Tuesday into the Mardi Gras of the French, the carnival of Italy, the Fasten Eve of Spotland, the Feast of the Lights for the Greeks and the Pancake Day of rural English and English Virginia.

No one can exactly tell the association by right of pancakes with this especial day of the week and the year. An old Saxon name for February is translated into "month of cakes," because the ancient Pagans used to offer cakes to the sun-god during its course. Another reason is given by a Catholic ecclesiastic in the following paragraph:

"When Lent was kept by a strict abstincted from meat all through the forty days, it was customary to use up all the drippings and lard in the making of pancakes. To consume all it was usual to call in the apprentice boys and others about the house, and they were summoned by a bell, called the pancake bell."

A ditty of Mother Goose refers to this pancake bell.

"Pancakes and fritters, Say the bells of St. Peter's,

"Tancake bell.

"Tancakes and fritters,
Say the bells of St. Peter's,
Where must we fry 'em?
Say the bells of cold Higham.
In yonder land thurrow,
Say the bells of Wellinborough.'

Say the bells of Wellinborough."

In many of the English boys' schools, "toesing the paneake" is an event of the school year in which the greatest interest is taken. Much ceremony attends it at Westminster, where the cook in respleadent white attire, bearing a paneake in a frying pan, is preceded by a verger with a silver mace, who escorts him from the kitchen to the school room, where the boys are assembled in eager expectancy.
